	<i>.....</i>

- Search for, analysis and synthesis of data and information, with the use of the necessary technology
- Team work
- Working independently
- Working in an interdisciplinary environment
- Production of new research ideas
- Respect for difference and multiculturalism
- Criticism and self-criticism
- Production of free, creative and inductive thinking

(3) SYLLABUS

Oral History is a relatively new scientific field that contributes to the study and understanding of the recent past. The course aims to give an overview of the history of the field, focusing on the theory of oral history and its practices, through cases of study from Greece and all over the world. It also covers the peculiarities of oral history and its use by the historians.
